***Drawings***

Applicant indicated in the Amendment filed 8-26-05 that the drawings filed 10-30-03 had not been indicated if they were accepted or objected to in the prior Office Action. The Examiner apologizes for the oversight and to clarify the record, the drawings filed 10-30-03 were intended to have been indicated as being accepted.

***Allowance***

Claims 1-38 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art teaches component assemblies comprising ceramic parts bonded metal parts using a brazing interlayer alloy material. The prior art of Lasater (US 6,221,513) teaches a hermetically sealed assembly suitable for use in implantable medical devices comprising a ceramic part bonded to a metallic pin **22** through the use of a titanium-nickel alloy interlayer. Lasater further teaches that the metallic pin **22** may be a titanium or copper metal. The prior art of Bealka (US 6,586,675) teaches a hermetically sealed assembly suitable for use in implantable medical devices comprising a ceramic part bonded to a metallic pin **20** through the use of a brazing interlayer. Bealka further teaches the metallic pin **20** can comprise titanium and noble metal as well as other materials. Bealka also teaches that the brazing interlayers suitable for use in the assembly include gold, copper, silver or alloys thereof.

While the prior art does teach assemblies comprising ceramics bonded to noble metals and assemblies comprising titanium-nickel alloy interlayers, the prior art does not teach or suggest forming an assembly comprising a ceramic bonded to a noble metal part wherein the brazing interlayer is a titanium-nickel laminate interlayer. As was recited in specification on page 4, lines 7-15, the use of a titanium-nickel laminate interlayer such as is claimed allows for liquidus formation in the interlayer at a lower temperature than with an alloy of equivalent composition.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
